Subject: FW: response for FDEP re: third party language suggestions

I just received a call from Heather Mason asking for an update on our response to the stakeholder questions. I gave her the status based on Jeaneanne's email below. Heather said that if DEP does not receive our responses by noon today they are moving forward with their rulemaking. This came from the John Truitt level or higher. I asked whether that meant they would accept all of the stakeholder language and she said they would accept "some" of the language but they definitely would like to hear from us first, if possible.

Subject: Fwd: response for FDEP re: third party language suggestions

Trey

Attached is the revised response to FDEP regarding third party language suggestions.

- We have the green light from OGC to transmit.
- OW staff have indicated that this looks good. We do not have word from OW at the AA level.

FDEP is awaiting this response before proceeding with rulemaking. As an update our prior conversation, FDEP indicated to Matt Hicks late last week that they would now prefer this response in writing.

I have included proposed language for you to transmit to Noah below.

Noah

In addition to the MOA language that I wrote to you on last week, FDEP also provided EPA with suggestions from 3rd parties related to the 404 rulemaking and, as part of the assumption process, sought our feedback. Attached please find our responses. We have included FDEP's questions (highlighted in blue text) and EPA responses (highlighted in yellow text) along with any other information necessary to provide background/context.

Again I want to thank you and your staff for the excellent coordination on this matter. If you have any questions regarding our responses please let us know.

Thanks

Trey
